**Documents
Boundary objects
Authorship**

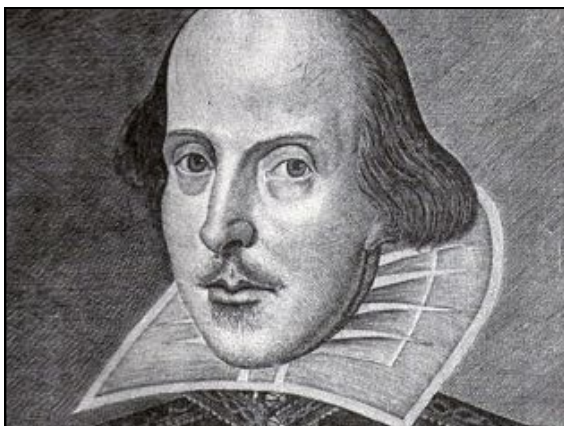

**Practical
authorship**

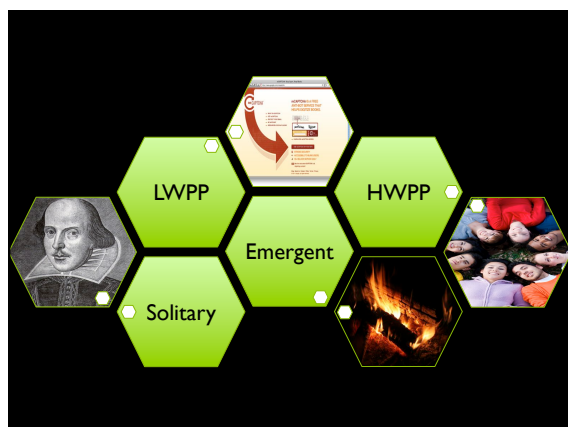

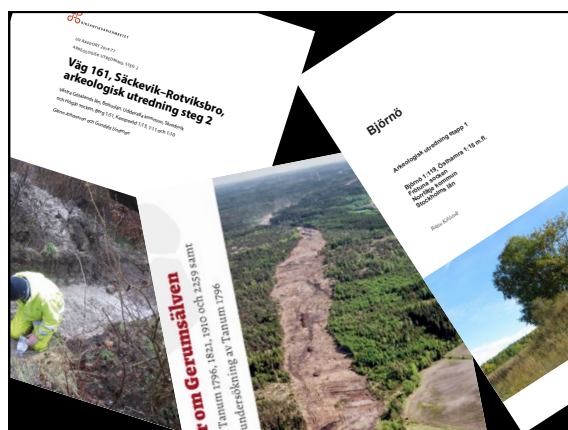

Authorship?

**Authorship of
documentary
boundary objects?**

Some empirical considerations

investigation is archived “through the report” (Eva)

(practical) authorship is not only making.

authorship is about

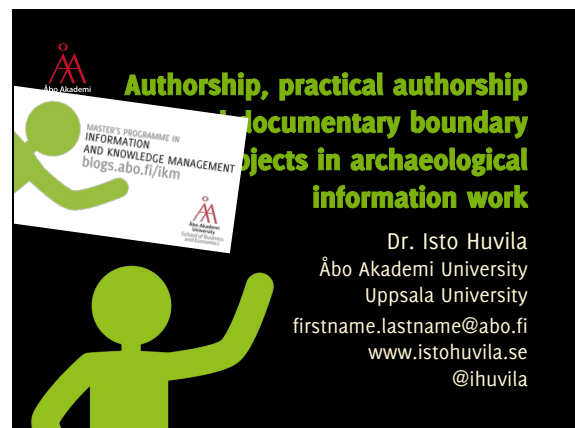

- Identities
- Liabilities
- Responsibilities

Implications?

1) BOs as tools for practical authorship

BOs in linguistic, visual and material conversations

2) Practical authorship beyond making

**Authorship, practical authorship
documentary boundary
objects in archaeological
information work**
